HTTP/1.1 404 File not found(404)-http://localhost/device/brand/avantgo/images/device/CE_header.gif
Clear Channel Cache
During synchronization,the server updates existing channels and pages with modifications only. Clearing the channel cache will force all the channels and pages to be transferred to the device during the next synchronization.
Clear Cookies
Cookies containing profile information about you are placed in your user profile by the sites that you visit. Clearing the cookies database may remove personalized information stored on your device by the web servers that you visit. Clearing cookies will disable the "remember me" feature from the login prompt
Clear Authentication Info
Some web servers require you to supply a user name and password to access the site. The server caches this authentication information and supplies it to the web server during synchronization. Clearing the authentication database will usually require you to reenter your user name and password the next time you visit a site that requires authentication.

AUTOCHANNEL™

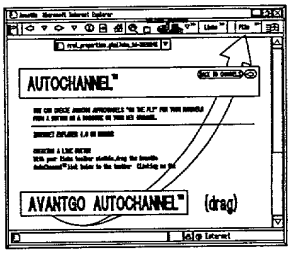
BACK TO CHANNELS

YOU CAN CREATE AVANTGO AUTOCHANNELS "ON THE FLY" FOR YOUR HANDHELD FROM A BUTTON OR A BOOKMARK ON YOUR WEB BROWSER.

INTERNET EXPLORER 4.0 OR HIGHER

CREATING A LINK BUTTON
With your links toolbar visible, drag the AvantGo AutoChannel™ link below to the toolbar. Clicking on the button while browsing a website will let you add that website to your handheld device.

Drag this link: AvantGo AutoChannel



CREATING A BOOKMARK
Right-click on AvantGo AutoChannel™ link below and select "Add to Favorites...". Choosing this in your favorites will let you add the website you are browsing as an AvantGo channel on your handheld.

Right-click this link: AvantGo AutoChannel
